

Pass By Value

```
#include <stdio.h>
```

```
void incr(int a);
```

```
int main()
```

```
{
```

```
    int a=5;
```

```
    incr(a);
```

```
    printf("%d", a);
```

```
    return 0;
```

```
}
```

```
void incr(int a)
```

```
{
```

```
    a++;
```

```
}
```

```
#include <stdio.h>
void incr(int *a);
int main()
{
    int a=5;
    incr(&a);
    printf("%d", a);
    return 0;
}
```

```
void incr(int *a)
{
    *a= *a + 1 ;
}
```
